The only possible way to cure Contaglous Blood poison is to remove the cause by purifying the blood. This is just what S. S. S. does; and it is the only medicine that absolutely and thoroughly cleanses the circulation of every particle of the germs and virus of the disease. Mercury, Potash, and other strong minerals are often used in the hope that such powerful treatment will kill the germs, but this can not be done, and when the mineral medicines are let off the trouble always returns with its aggrayating symptoms of plearated month and thoust but this can not be done, and when the mineral medicines are left off the trouble always returns with its aggravating symptoms of ulcerated mouth and throat, thin eruptions, falling hair, yellow skin splotches, swellen glands, and often running sores. The ability of S. S. S. to cure Contaglous Blood Poison comes from its unfailing blood-purifying properties. It goes into the circulation and removes every trace of the infection, makes the blood rich and healthy, and leaves no Gregs of the virus to break out later on. S. S. S. does not centain a particle of raineral in any form, but is made entirely of roots, herbs and barks each of which has a direct and specific action in cleaning the blood. In addition it contains the extracts of certain botanical herbs which make it the finest of all tonics, which is a necessary quality for a medicine in curing Contagious Blood Poison. Home Treatment book, containing much valuable information and instruction to be found nowhere else, will be sent sealed and post paid, free to all who write and request it.
